

Venture into Yom Kippur

Activity: Jonah and The Big Fish: Seeing the Light

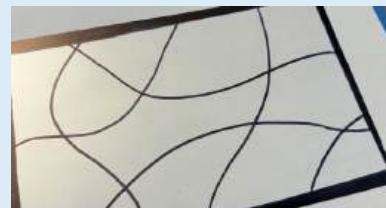

Make a "stained glass window" (just like the eyes of the big fish!) that light can shine through to show you the way!

Materials: piece of transparency paper/acetate, permanent black marker, highlighters or markers

1. Cut the transparency sheet to your desired size.

2. Draw a thick border and then random lines to create sections with the permanent marker.

3. Color in the sections with highlighters. Try to let it dry for a few seconds before touching it.

4. Tape your "stained glass" to a window to let the light shine in!
